

Solving today's complexities of... Human Resources Management and Duty Rostering.

8. Management Functions additionally include:

- Working time analyses for welfare purposes. includes average hours, insufficient rest days analyses, inter-shift break times, etc.
- Analyses of leave, sickness, courts, training, secondment and other activities
- Analyses of shift deviations
- Analyses of overtime
- Analyses of time banks
- Analyses of schedules and resource cover.
- Analyses of deployed and lost hours - by cost centre/operation if required.

CARM is paperless, real time scheduling of personnel, resource utilization and optimization with accuracy and consistency in the application of policies or collective agreements. Resource management, patrol scheduling and duty management at its finest.
